Profile

- 2 years of IT experience as **Web Application Developer** with special interest in **Front end** development and managing rich, interactive and user-friendly web applications and scripts.
- Experience in working with various web development tools and technologies such as HTML5, CSS3, Bootstrap, JavaScript, jQuery, Ajax, VueJS, Vuex, React & Redux (in progress), JSON, CSS Preprocessors (SASS), RESTFUL Services and APIs, Object oriented programming, MySQL, Bootstrap, webpack, GIT , ES6 destructuring, arrow functions, module loaders, web workers, charting libraries.
- Hands on experience in creating highly interactive single page applications (SPA) using VueJS framework that respond to all user actions.
- Experience in writing reusable code with breakpoints to create pixel perfect responsive web design, implementation wIth polyfills to ensure cross-browser compatibility.
- Strong understanding of working with GIT as a code repository and version control tools. Experience working with Atlassian products: JIRA, confluence, product documentation, & Pivotal tracker.
- Experience with testing, optimization and debugging. Excellent problem solving and analytical skills with strong attention to detail to deliver expected quality while using Track JS to monitor sIte performance on a daily basis, and working in teams to resolve various problems.
- Strong communication, time management skills, as well as a willingness to learn and strong work ethic.

Skills

Other Skills
Windows, VSCode, Git, Dreamweaver, FileZilla

Office Skills:
Analytical, Accountability, Attention to detail, Creativity & innovation, Decision-making, Initiative, Integrity, Problem solving results-oriented.

Frontend development Skills
HTML5, CSS / CSS3, SASS, Bootstrap, JavaScript, jQuery, Ajax, VueJS, React(in progress), Webpack, Responsive Web design, Google API, social media APIs, Cross browser Compatibility, JIRA, JSON, Agile, SDLC, Testing- Mocha, chai, Jest.

Work Experience

FRONT END WEB DEVELOPER – OMNISWIFT TECHNOLOGIES (Abuja, Nigeria)   08/2018 – 05/2019

- Used front-end technologies-HTML5, CSS3 and JavaScript- to create functional user interfaces and design prototypes for **Enterprise Web applications** on the Nigerian Teachers Institute portal.
- Built the Omniswift Website alongside some team members using the front end technologies

and making it responsive across all devices and across different browsers. Created the backend admin super user UI for the CMS part of the website.

- Maintained, updated and fixed OmniSwift's company website with new contents.
- Worked with a variety of UI technologies, frameworks and REST APIs. Delivered production ready interfaces using VueJS, Vanilla javascript, Ajax and other JavaScript frameworks which connected to a variety of API's. Developed user friendly applications by integrating Various 3rd party APIs such as Google API, and social media API.
- Collaborated with backend developers/design team to improve the usability of web apps, coding and troubleshooting problems that are browser based on the Omniswift website.
- Developed new software applications in partnership with the Project management team for Python Dance Project.
- Optimized applications for better speed and smoother experience for the end users.
- Examined every step of SDLC (Software development Life Cycle)- requirement analysis, design, code, test & maintenance, worked with a variety of UI technologies/ MVC frameworks.
- Worked with features of VueJS and Vuex such as directives, dependency injection, modules and routing. Involved in creating **AJAX** calls to handle data operations including ordering and filtering.

FRONTEND WEB DEVELOPER–Melpyns Limited - (Abuja, Nigeria)   2017- 08/2018

- Worked on quality documentation, flowcharts, layouts, code comments, clear codes and UML (Class, ERD, Database) on Newgate college portal.
- Tested softwares using JEST,MOCHA, CHAI While fixing ('debugging') errors where they occured, and rerunning and rechecking the program until it produced the correct results.
- Developed as well as maintained complex, user-friendly, responsive web applications that are highly reliable, scalable, and easy to use with vanilla Javascript,HTML5, css3, Ajax,bootstrap.
- Developed Single Page Application (SPA) using VueJS + Vuex, created application structure based on the Vue Style Guides and best Practices, Used Vue-CLI for initializing and project setup with scaffolding features.
- Translated design team's UX wireframes and mockups into responsive, interactive features.

TECH SUPPORT FOR INNOVATION ACADEMY SCHOOL AT TYLER TEXAS.

UNIVERSITY OF TEXAS AT TYLER – THE INGENUITY CENTER (TYLER TX USA)   09/2014 – 01/2015

- Resolved and responded to complaints from Parents, students and, staff of Innovation Academy School in Tyler, Palestine, Longview Texas with the minimum time of completion, maintaining a 99% success rate.

- Led improvement initiatives to advance operational efficiencies and reduce downtime by 2%.
- Successfully worked on students iPads: password issues, technical repair issues while adhering to best safety standards.
- Used Software like Meraki to track technological devices, pushing modern updates to the apple products of students of Innovation Academy.

EDUCATION

Master of Science in Electrical Engineering   **May 2016**

    The University Of Texas at Tyler, Texas USA.

Bachelors in Electrical Electronics Engineering   **Dec 2011**

    University Of Port Harcourt, Rivers State Nigeria.
